

Parent Seminar: Understanding and Addressing Student Challenges

An explanation of executive function skills and how to strengthen and develop successful students and children

Do you have concerns about your child in any of the following areas?

- General study strategies
- Organization, planning, time management
- Attention, attention to detail, memory
- Inconsistent or variable grades
- Success at home or school not matching personality or intelligence
- Simple tasks posing large challenges
- Flexibility, adaptability, rigidity
- Social-emotional well being
- Self regulation or self esteem
- Initiation and completion of tasks

There is often a neurological explanation for these challenges!

***These students need continual and consistent support and guidance.**

***They must be taught things that come naturally to others.**
